What was she THINKING?

By Dr W. Richards

I've been reading Edith Layton's novels for several years, and have been gradually coming to the conclusion - confirmed by this book - that she reached her peak with the C series and has been in decline ever since. I have no idea how this book made it to print; with the plot alone, I can't see why any editor worth their pay wouldn't have said no within two seconds of starting to read the outline.

The characters are wooden and inspire no interest. The secret Aubrey is hiding is apparent even to the most

casual reader within 2-3 chapters, and I wasn't remotely surprised when it all came out. Though, since this book is flagged as a straight romance, not a paranormal romance, I wasn't expecting it from the outset and, quite honestly, wouldn't have bought the book had I known.

Neither Eve nor Aubrey, nor the minor characters, earned my attention or sympathy at all. Eve can't make up her mind - how many times does she leave Aubrey, or think about leaving him? Aubrey is far too detached, and is too much of a user. There's no romance at all: we don't see the two of them falling in love. We're told that each doesn't love the other but is determined to get what they want out of the marriage, and then suddenly we're told that they've fallen in love - but we don't see it.

Absolutely tedious, uninteresting book with a yawn-inducing 'conflict' and a resolution that was rushed and also far too obvious. Avoid.

Disenchanting

By G. Greene

I've been an Edith Layton fan for years, but I'm sad to say that this book really misses the mark. The premise was interesting enough, but the characters are insipid, bland, and boring, boring, boring. There is no chemistry between them, nor does the plot provide any kind of believable jeopardy. The book begins poorly and never picks up any steam at all.

If you've never read Layton before, don't let this misstep dissuade you from reading any of her other books, which are excellent. full of sparkling dialog, fascinating characters, and intriguing plots.

A disappointment!

By Lulu

This was my first book by Edith Layton... I won't review the story since it's been done and besides I really didn't care for it. I must have missed something others have read. I was terribly disillusioned with this book.

The only good point was it's romantic cover.

Personally, I felt it a boring story. There was so much promise at the beginning and then, I don't know what happened, it just petered out. What a disappointment!

There was no chemistry between the H/H at all. I didn't feel connected to the characters, they felt like cardboard cut-outs. The heroine came across as oblivious, not questioning her husband's disappearance every night. Whats with that? (Wouldn't you question your husband as to where he went every night?)

And as for his secret, I read past it, only to later realise THAT was his big secret. It just fell flat when it was revealed. I thought the author raced through the writing.

There were parts that felt disconnected from the story. Really didn't care for this novel.
