Time to run, and maybe fight. But really I'm not a fighter. I fell off the couch when I go caught in the blankets the other day. But I don't have a choice. Malsumis is moving in. He's taking prisoners. He's coming for me and he'll destroy anyone who gets in his way.

It Just keeps getting better

By Michelle @ The Passionate Bookworms

Again: Hooray for a cover that has a "feel" that matches the story! Intense. Dark. And Beautiful :)

Capture starts off with intensity, picking up where Reveal ends. Prom night, Terror.. and Running for their lives!

Thankfully, Hugh knows of a safe haven. A place where the darkness cannot track them. Here is where we meet a multitude of new Cryptids! Why and how you ask? Oh ya know... Shay just kinda invited them in *shrug* But it turns out it's all for the best. They need an army. Shay and Hugh may have a destiny. But it won't matter if they can't survive long enough to fulfill it !

I loved Capture. It was filled with so much action, adventure and love that, well I could not put it down! Less than 2 hours after opening it up, I closed it with shock on my face, Wanting more!

In this part of the story we learn that Cryptids are not just super special humans that can shift into animals. But much more diverse. A harpy who I grew to love. A lizard like man, A Moth man- ya you read right! Oh and Centars! As well as so many more. It was awesome! I was giddy with excitement getting to learn about

each different cryptid and their "quirks" right along with Shay.

#2 in Brina Courtney's Cryptid Tales series will have you laughing, gripping the pages, swooning, and going "What the heck" In a short time period and leave you begging for more. Like me .. I ... Need... MORE lol

What do I wish there was more of in Capture?.. PAGES >.< It was over so quickly. But I can't deny that it was a well rounded story for it's length.

This Series WILL have a big fan base. I predict it.. It will happen. Such an interesting tale, with a plethora of characters and twists.. cannot be overlooked !

Picks right off where first book ends

By Angela@ReadingCave

This book begins right where the first one ends, Shay and Hugh at the Senior Shuffle. Erica, one of the meanies from book two and several of her minions show up. She tries to capture Shay and Hugh but Olivia to the rescue. Shay and Hugh along with Olivia get away. They drop her off and tell her that she doesn't know them. This part makes me sad, as Olivia was my favorite character from book one in the series. They of course hide and regroup- with several other cryptids joining forces. The new characters help her to fight Malsumis and his followers. Since this is the second in series you know of course that there is no resolution between Shay and Malsumis yet. But the second book was fast paced and with more action. So that was a plus. Another thing that the author has going for her is that there is still no love triangle. Praise all that is holy! Although Shay and Hugh could cut back on telling each other I Love You just a little.

Huh?

By Amazon Customer

The story had soo much potential. I knew the first book, Reveal, was short but it had more description than this one. I did not feel that there was any character development in this one and it resolved the conflict abruptly in the last chapters as loudly as simply putting The End would.
