CAREER MAPPING: PLANNING YOUR CAREER ON PURPOSE (GET PROMOTED FAST) (VOLUME 1) BY DOROTHY TANNAHILL-MORAN PDF

Do you know where you going professionally?

The saying that if you fail to plan you are planning to fail is particularly true for your career. If you don't like the direction your career has gone, a lack of a solid career plan is to blame. Maybe you never gave a career plan any thought before now. It's never too late to put your career on track and finally enjoy the dreams you had in store for yourself. You can create the kind of career plan that takes into account job promotions, more responsibility or even a career change. Written as a workbook, you will discover the important steps to take and it will help you easily create your own plan by the time you finish the book. Here's what you'll get for a powerful career: - How to create short-term and long-term goals that create accountability - How to conduct a gap analysis that will verify the actions you are planning are the right ones - How your process will help you gain supporters and mentors to help you achieve your goals! - Wake up everyday with the confidence that you know where you're headed and what you are doing will get you there! "It is easy to say I want more from my work and career" but it can be difficult to know where to start. Never fear. This easy-to-digest book makes it do-able. Dorothy Tannahill-Moran has kept it simple and straight-forward." Hannah Morgan, Career Sherpa

Great little book, full of practical advice and career guidance

By Margaret B

"Career Mapping for Climbing Managers" is an excellent book with loads of practical, down to earth advice and direction you'll want to use to take action planning your future.

Dorothy Tannahill-Moran believes that your career can either happen to you or you can make it happen. The thing we know for sure is that it won't stay the same, nor will you. Way too many people really don't like their job or career. The author believes that a big contributor to the dissatisfaction that comes along with our careers is the fact that we put very little planning and thought into where we're going. This is especially true as a growing and climbing manager. You have to know where you're headed so you can also direct your organization.

What if your career map held the same kind of excitement as planning a vacation? It's time to hit the reset button on your attitude for planning your life and career. Following the steps outlined in this e-book will lead you to long-lasting career success and satisfaction.

I particularly enjoyed the section about gap analysis and action plan validation as well as a very practical section about SMART goal creation.

Even though the book is addressed at climbing managers, I would recommend it to anyone who is interested in having a satisfying career and I'd be happy to recommend it to my clients.

Keeping It Simple and Do-able

By Career Sherpa

It is easy to say "I want more from my work and career" but it can be difficult to know where to start. Never fear. This easy-to-digest book makes it do-able. Dorothy Tannahill-Moran has kept it simple and straight-forward.

CAREER MAPPING won't leave you feeling overwhelmed as you go through the clearly defined steps. It contains bite-sized nuggets illustrated by stories to help hit the key points home. Goal-setting can sometimes be vague and hard to define, but CAREER MAPPING puts substance behind the suggested action.

Leaving your career to chance is risky and hoping your employer will provide you with opportunities to grow is unadvised in today's work climate. Proactive career development, through vision, goal setting, and most importantly, accountability resources will ensure you embark on the path towards your dreams and find some happiness along the way. This book will help guide you there.

Ideal guidance for Individual Contributors, Managers, and Executives

By Rusty Weise

This book speaks to those interested in a no-nonsense and succinct path to achieving a management to executive-leadership level position. Dorothy gives you tools to make your next move well considered and made with confidence.

I think this is an instant classic, to be read whenever you are at a decision point in your career and need a boost or reminder of the best path forward to be happy and fulfilled in your position. The message is timeless and applicable across the gambit of professions. I will be suggesting this to my colleagues and keeping a few on hand as a perfect motivational guide for those needing to get back on track or be convinced they need to better promote themselves and how.
