This book makes you feel good about yourself.

By A Customer

At the last American Society of Addiction Medicine meeting in New York, I found out that most treatment centers were using this book. I read the text and I can see why. The book tells you how to do everything you need to know to treat addiction well. Besides, it makes you feel good about yourself and what you do as a counselor. The book is incredibly loving and healing for anyone to read, even the patient. It contains all of the tests and exercises needed to take a patient through treatment. It leaves no stone unturned.

Nice but old

By Sandra Kaplan

Perkinson is competent and caring, structured and paced. But it's a bit old, as if all CD treatment was unadulterated Minnesota Model, 28 day inpatient care. Now, in fact, more than 1/2 of those facilities have died on the vine due to managed care, and outpatient rules. Plus we've got patient placement criteria, all kinds of research from Project MATCH and etc., and new techniques like motivational enhancement, stages of change. Maybe if Perkinson put out a second edition and updated it, we'd find it more useful

The Best I Have Ever Read!

By Steven E. Adams

This book is a must for every clinician working in the field. I use the material working with both adult and adolescent clients. The concepts are written in a manner which make it appropriate for any group/individual regardless of age, sex, education level, or ethnic background. The Spirituality exercises are the best I have ever seen.
