Actionable advice that actually worked for me

By Doug

Simply put, the advice in this book worked for me. I hadn't been having much luck online and I decided to check this book out. My results have changed after I used some of the advice here. Two dates over the last three weeks - this book is well worth the price tag!

Near Instant Success After Reading.

By Jeremy S.

I won't fluff up my review. Let's stick the facts.

After I read Kyle's book and implemented his guidelines, I tripled the amount of message replies I was getting, and doubled the amount of dates I went on.

Plus I have over two years of experience online dating. If I had known a blueprint so precise when I first started, I would be a king already.

I recommend this book for any young man (or even the not so young, the advice applies even more to the older gents) who has, or is considering having, an online dating account.

So stop drinking your fancy frappawhatsitcalled and invest in something that will bring returns directly to your cock.

Not worth the price

By Joshua

I purchased this book to help with online dating -- something that I haven't done in many years. Some of the advice was sound, but most of the guide felt very rushed and lacking in substance. I wouldn't recommend it at the current price.
