Darlene Bobich and Dying Days... My first entry into survival horror novellas =)

By Muser42

I started with Dying Days and then read it's prequel. This is in fact my first introduction to survival horror set in a very real post apocalyptic world crawling with zombies and the equal depravity of mankind. However not all is lost, there is still some good in mankind left; they band together or choose to go solo showing mankind's will to live and survive, yet all the time showing mankind's need for companions. Raw, depressing, yet with a shred of hope, the heroine toughens throughout the novel yet still maintains her emotions and vulnerabilities. Fast paced and always keeping you turning the page wanting to know what will

come to pass. Armand definitely has his own unique style!

My previous dabbling into the genre included console games Resident Evil and Silent Hill. I am an avid gamer, and shared these exp. with my sis who got me interested in Mr. Rosamilia's work.

I am currently reading Dying Days 2, hungrily eating through the novel with a voracious appetite for more (haha, a pun intended) ^\_\_^
