Best. Cookbook. Ever.

By Sun in Gemini

I just happened to see this cookbook at the library in the new nonfiction section. Thought, "Hmmm." Grabbed it and checked it out, without even flipping through it. And? It's the one I've needed my whole life. No exaggeration. It's illustrations, step-by-step, of how to do and make all kinds of things. No reading or skimming. Just seeing and finding. It's brilliant!
