Wonderful humor

By hyggehygge

Embroideries is a wonderfully funny graphic novel detailing the romantic lives of women in Iran. Each woman's story spans just a few pages, but touching, amusing punchlines are delivered every time. The illustrations are lively and gestural, capturing the personalities of Marjane's family and friends. The book is very relatable. It would be a good discussion starter for a book club or a parent broaching the subject of love, romance and courtship to young women.

One of the more amusing stories is told by a woman who, after noticing that her middle aged husband was being distracted from her middle age self by twenty-something women, had plastic surgery that took fat from her behind and used it to perk up her breasts. He loves her new breasts - but in fact is kissing her rear!

Great but short.

By Amelia Bright

I love this book. It is hilarious, just like Persepolis and well drawn and written as always. The only downfall is the length... it's too short and probably a better choice to get it from the library.

High Praise for Embroideries

By Cynthia Salehi

Funny, heart breaking, insightful look at women in Iran, but could be women anywhere. The author is very good at getting precise meaning and acute issues across with just the right words. My new favorite author.
