Captivating, yet freaky

By Kindle Customer

This book really had all I could have wanted, until I got towards the end and several sexual scenes took place, which were way out of my league. IF you are not into menage and more, this book is not for you. IF you can get past this portion, the book is an excellent read.

Very realistic

By Series Shawna

I felt this story was rather slow, until the last 10 percent then it was a quick steamy interlude and vanquishing the bad guy. I gave the fourth star only because it was very real, horrible and sad, as things would definitely be after WWII. I also liked how we got to know each of the good guys, and even though we never get a peek into the bad guy, one really does understand the crazy megalomaniac he is through his actions. A good read for the most part.

Guarding Angel

By TG

I really liked this story. The world building was fantastic. The men all hero's and the type of men any woman

would want as their own. Angel was a very strong female character, who could inspire anyone to be more and better.
