A life saver!

By Karen Grove

This book truly saved a life...the life of my own dog. When our adopted dog attacked a friend's dog we didn't know what way to turn. Joy Tiz provided us with direction, encouragement, and the tools necessary to both understand and manage his dog-aggressive tendencies. Her book is not only filled with wonderful insights on how a dog thinks and reacts but tells us how we, as owners, can build a stronger relationship with our canine friends. The book is fun to read, too. Thanks to Joy, I have developed a deeper understanding of canine behavior and a stronger dog/owner relationship, built through a foundation of obedience, respect, and control. I couldn't have done it with out this book. Thank you, Joy.

Greeaaat Book

By K. Nezz

I have 2 adult stubborn Bichons that I adopted as adults. They were never obedience trained as pups. This book addresses all of the issues I have with them. I'm currently in the process of following Joy's instructions and I'm amazed at the results. They are a work in progress but I see light at the end of the tunnel.

**Citywulf - Dogs don't think like humans. Joy only recommended grabbing the muzzle or scruff on the neck as last options. She also recommends increasing the confidence of timid dogs. She has advocated

posturing and looks - hence the ALPHA***

A Joy to read

By Yvonne D. Lauro

Ms. Tiz certainly hits the mark with this book. She aptly describes dog behavior, and how to improve and correct negative behavior, both the dog and the owner. She does all this with a great deal of humor and wit. I enjoyed her personal experiences with her own dogs. Her strong-suit, however, is how well she describes proper training, and what training devices to avoid. I especially agree with her that the best way to train a dog is with praise and love rather than bribery (treats). Every dog owner should absolutely read this book. My highest recommendation.
