This is basic, check out the soft file of guide [Lies We Live \(The Truth Series\) By Brenda St John Brown](#) as well as you get it.

LIES WE LIVE (THE TRUTH SERIES) BY BRENDA ST JOHN BROWN PDF

Twenty-nine-year-old Ella Ingraham is a best-selling novelist. She's also a murderer. At least that's what most of the world thinks after her bastard ex-boyfriend brought a tabloid frenzy and a civil suit down on her for "negligence" following the stillbirth of their unplanned child at eight months. Her New York - California drive is meant to be an escape after the hell of the trial, and Horatio, AR is just another random exit off the highway. Until she meets Josh Devereaux, part-time farmer, full-time tech genius holed up in his hometown after a few years in New York turned him into a bigger asshole than he ever thought he'd be. Ella finds Josh Fascinating, capital "F". Followed immediately by unnerving. He knows too much about her and, quite frankly, he tries too damn hard. That's a red flag if she's ever seen one. Or at least it would be if she were thinking with her head and not the more irrational parts of her anatomy. Like her heart.

I would wait for the second book to be released before I read this one!

By Sarah53121

I was given a copy of Lies We Live from NetGalley for an honest review and this is the review.

I am so mad at how this book ends it went from a five star rating to a two star rating in a blink of an eye. The cliffhanger that this was left at for me ruined what was an excellent book. I now feel like I wasted three hours of my life for something I may never get an answer to because over this past year I have learned life has no guarantees so the next book may not come out or in my case having MS by the time it comes out I am not going to remember this book and not care about it. So next time my advice would be if you have something great going don't let greed for the next dollar make you cut it off too soon. A lot of great authors have wonderful series out there learn from them and don't leave your readers hanging. This is not television,

abrupt cliffhangers don't always make people happy.

The story was great. I loved it. But I could not recommend it to other readers until the second book is out. I just don't do cliffhangers like this one. Like I said earlier the author took something that could have been a home run and ended up striking out on the last pitch in my eyes. Unfortunately I have to give this book two stars out of five because I felt my time was wasted.

#SERIOUSCLIFFHANGERWARNING

By Jennifer Pierson: The Power of Three Readers

I wasn't sure what to expect with this book, but I was very surprised, as I really enjoyed this story. Ella Ingraham is best selling author, and also an accused murderer. Her ex sued her for negligence after her baby was born dead at 8 months. She needs to get away so she goes on a road trip. Josh Devereaux is a very hot part time farmer, and full time tech genius hiding away after New York turned him into someone he's not. He's battling secret demons that are locked up tightly. When he meets Ella, he feels something for the first time in a while, and it scares him that she could unlock all the secrets. Ella hasn't planned to get involved with Josh, but as they spend time together, the feelings grow quickly. Will Josh and Ella let down their walls for a chance to be together?

The story was a bit slow at the beginning because I was so confused, but once I got past that, I couldn't turn the pages quickly enough. The character development is slow but great, with a few rockin secondaries. Story line is mysterious that flows well. Brenda St. John Brown does a great job with weaving together layers so there were surprises that I never saw coming. It ends on a big cliff hanger that has me needing the next book like yesterday! I can't wait to read more, and I happily recommend.

A cliffhanger to be resolved!

By thecovercontessa

I want to thank the author, Brenda St. John Brown, for providing me with a copy of this book to read and give an honest review. Receiving this book for free has in no way altered my opinion or review.

I have to say that I loved this authors young adult book, Swimming To Tokyo. More than the story, which was fantastic, I loved her writing. So given the opportunity to read something else by her, I jumped at the chance.

Ella Ingram has been through the mill. And she suffered for it. After a long court battle with her boyfriend over their still born child, Ella picks up and leaves everything behind to get away and try and re-invent herself. She'll do anything to get past her past, except face it head on. When she ends up in a small town where she meets the mysterious Josh Devereaux, her life takes a turn back towards home, and all she's tried to leave behind.

I love Ella. She's strong. Her past experiences have made her so. I cannot imagine having endured the loss of a child. And to be brought to court over it is something unfathomable. This one is tough as nails. It's hard not to be on her side.

Josh has his own secrets that he doesn't share, but he knows exactly who Ella is. Josh is a perfect swoon worthy book man. Good looking, suave and ready to leave his past behind, it rears its ugly head when Ella comes to town. And even though he knows he should stay away from her, he can't help but be drawn to her.

Ella and Josh have a slow burn. The romance is just right. Ella and Josh don't go at each other, but they don't stay away, either. The story really focuses on how they get to know each other and how they find out about

the other. What starts as a simple date becomes more than either of them bargained for. Josh knows exactly who Ella is and what she's been through, but does Ella really know Josh. And his secret are is then thing she can never find out about.

I love Si and Trudy. They are Josh's friends but Trudy quickly becomes one to Ella. I love that she's there when Ella needs her most. And even though she is loyal to Josh, she knows things. Things that she can't tell Ella.

Finally there's Eric. I hate Eric. I will be that honest right off the bat. I hate what he's done to Ella. And I hate who he is. And I hate that he holds so much over her. I don't want him dead. That would be too good for him. I just want him gone. He made and continues to make Ella's life hell. And it's just not fair! I would beat him if I met him in real life!

Overall the story takes on a quiet suspense that builds and builds. I have to say I didn't see the ending coming. And then BAM, a cliffhanger. I was NOT happy! And I mean that in a great way. The way that says, "Give me the next book or I might have to throw something!"

So onto the next book it is. Because you just can't leave someone hanging like St. John Brown did!
