Five Stars

By pmartino99

Great read, thrilling and very different than most stories. Page turner.

Another lost gem!

By Mad Reveller

It's an injustice for this novel to be out of print. Although as one reviewer mentioned, the ending is a bit too obvious up-front, the story has many compensating qualities, especially the excellent portrayal of a good guy, Corky, plagued by inner demons he just can't control. Thus, we have an excellent drama of the downward spiral of a character we come to like. Incidentally, the movie featuring Anthony Hopkins is even better, and it, too, was written/scripted by William Goldman. Also, maybe some of you might remember the trailer for this film in the late 70s. I was still a kid/preteen back then, and the trailer with the dummy scared me half to death, and to this day, it stays with me. Unfortunately, the video copy I have of the film doesn't contain the trailer. Anybody out there remember it, too? Anyway, if you aren't able to buy a copy of this book on an Amazon.com auction, try to get it through an intra-library loan at your local library. I think you'll be glad you did, for this is a forgotten gem from the greatest era of horror, the 70s, and it should still be in print today, because it's as good as any psychological-suspense-horror novel I've ever read.

Great psychological horror novel

By Jake Barnes

Too bad this book from novelist/screenwriter William Goldman has fallen out of print. This is great psychological horror that reads fast (most of the book is dialogue) and has some genuine creepy moments. It's a kind of combination of Jekyll & Hyde meets The Tell Tale Heart mixed with magic and ventriloquism. It seems a mixed bag, but it works.

If you like the other horror books of the '70's -- The Other; Rosemary's Baby; The Exorcist; Carrie -- then you'll like this one. I've read people complain that this is like a long Twilight Zone episode, but since when is that a bad thing? The jekyll and hyde theme is one of the most basic in all of literature. And creepy dolls are SCARY! Try to find this at your local library, used book store, or garage sale. It's a great weekend read.
