More Manga Moods to Mull over!

By A Floyd

If you liked the original Manga Moods, here's more of that!

While some of the romaji of the Japanese words is a bit off (long o not being written as OU), and maybe the translations of the phrases could be more literal, it is a cute way to learn some Japanese and a way to learn some useful words. I would even say it would be helpful to those with some amounts of autism in case they have some trouble with recognizing certain emotions. It's like a handbook in that regard.

2 of 2 people found the following review helpful.

Not what I expected, better!

By Michael McGathy

Ok, I got this thinking that it would be a book simply with illustrated manga moods for artists to see various manga emotions. Well it is that (no how to or anything). It has so much more to offer!

The book is set up with an illustrated emotion on one page and on the opposite page is the emotion name in English, Romanji, and Kana, along with two phrases (English and Romanji) related to the emotion. It's great being able to learn some phrases in Japanese as you explore manga moods!

0 of 0 people found the following review helpful.

Love it!

By Melissa

I ordered this book and it's previous version, and it arrived right on time! Be aware that these are gift book

size, and are much smaller than normal books. If purchasing, I recommend stuffing these into a stocking or gift basket since they'll fit nicely. This version also has more male characters than the first one, and even teaches you a little Japanese, which was a plus. It starts with little words, and then gradually moves up to whole sentences, and I simply loved it.
