References Like Conspiratorial Pokemon - Can You Catch Them All?

By R. Marcus Atihsamy

An exciting, darkly delightful tale. Expertly blending noir with conspiracy theory, Mr Blank is rife with action, intrigue and paranoia of the first order. Eschewing the grim meditations of more cynical genre fare, Mr Blank instead approaches the world of conspiracy theory with a sarcastic sense of humor, at times reminiscent of Catch-22, but ultimately original in both tone and content.

Perhaps the most entertaining aspect of the novel is the plethora of references. Everything from pop-culture, to film, to history (some real, some "alternative") is leveraged to establish setting, define characters and create context for the drama of the story. Unlike other novels that attempt this (but fail by being overly subtle or obscure), Robinson use of this device taps into a common narrative that nearly every reader will be familiar with. This is not to say there is anything approaching predictability, however - if anything, the use of references enhances the mystery, often engendering a sense of Deja Vu in the reader (oh yeah... I think I remember something about the CIA being involved in the Kennedy assassination...creepy!). Best of all, if you happen to come across a reference you don't understand, the story doesn't fall apart. Robinson takes care to provide sufficient context, keeping the reader engaged rather than inspiring them to stray off to wikipedia.

All in all, Mr Blank is a smart, witty tale that never fails to entertain. It can be tricky keeping all the angles straight, but the characters in the book suffer from this right alongside the reader, so rather than detracting from the narrative, it enhances it by creating simpatico with the plight of the protagonist.

Highly recommended, Mr Blank will not disappoint! Though it may leave you looking over your shoulder...

This Needs to Be a Movie!

By Charlotte Miller

Loved reading this! The clever narrative and LA setting made this book a really fun experience. I want to see it on the big screen! Robinson's writing is vivid, full of visual punch, and he deploys imaginative genre-bending (Raymond Chandler meets sci fi) to dish up a story with across-the-board appeal. And it comes with a twist at the end. Can't wait until his next book.

Aliens, the Antichrist, and Axolotls

By Leila V

If you're at all interested in conspiracies or mysteries, I highly suggest this novel to you. I loved reading about a man who casually performed mundane tasks that included planting envelopes in lockers, moving goats blood, and annoying members of opposing conspiracies on the same day.

I'm especially enamored with Mina; it's not very often I come across women characters who are written so well. She's not over-the-top badass with guns/swords blazing, but neither is she damsel in distress. In fact, she does a reasonable amount of ass kicking/ass saving on her own, without being unbelievable. She's silly, but also sexy in a world where 'plus size' is typically an insult.

Blank's narration was hilarious, and I loved all of the little references to pop culture and other things. Some references were definitely lost on me, but I was pleased to catch the Georges St-Pierre mention in the latter half of the book.

The end of the book worked really well for me, and although I don't want to give anything away, I will say that it was well done and not many people could have pulled it off the way Justin did. Even if you're not a huge fan of conspiracies or mysteries, I'd suggest reading it purely for the humor and character writing/world building. And now, I find myself wanting to be part of the Knights Templar. Just a little bit. And lordy do I ever wish this was coming to a theater near me.
