# **ROGUE (BOOK 2) (THE OMEGA GROUP) BY ANDREA DOMANSKI PDF**

The Omega Group has one purpose: to save mankind from preternatural and supernatural threats. After all, it takes one to know one, right?

Being sent home to investigate a rash of unusual events at the Grand Canyon is a mission Carter Mockta would really like to avoid. He's worked long and hard to forget his past and the reasons why he first joined the Omega Group. Unfortunately, missing people, tourists losing time, and unexplained auras are problems that can't be ignored.

Thrust into the middle of a tribal war that began over a thousand years ago when a God granted a single wish, Carter and his team must put an end to the vicious feud and scramble to survive as the ancient past, troubled present, and not-so-distant future collide.

The Grand Canyon holds many secrets, but one of them is far more sinister than anyone knows.

Best Action Paranormal Romance

By Kristelle Linawan @ Amiabooklover

I received a digital copy of this book from the author via Book Review Buzz in exchange for my honest and

unbiased review. Thanks for the copy! All are my own opinion and is not compensated by any individual, organization, or company. This might contain minor spoilers.

#### MIRISSA IN THE NEW LIGHT

I think I forgot to mention in the review of the first book that I did not really like Mirissa's personality. She did not reach me that well for me to enjoy her. I do not fully buy her love team with Greco. It's like there's not enough depth for real love to actually form. Who knows, maybe the novella 'Greco' is all I need. Haven't read it anyway.

But oh well... Mirissa, I'm starting to like you now. Just do not engage too much on flirty acts with Greco.

#### EASY READ!

Andrea's way of writing is borderline professional--thus making it easy to read. I made a friend of mine read a few chapters and she too told me that it is easy to read and understand. My friend likes reading books she could understand without having to figuratively memorize all the Dictionary's words and its meaning. Her writing is smooth and I did not even felt confused nor lost in any moment of any part or any scene. This book is so much better than its precedent. I couldn't believe there's only 1 star difference between them. Makes me rethink of the 1st book's rating.

#### ROMEO AND JULIET IN SUPERNATURAL WORLD

This installment focuses a little bit more on Carter's past life and its connection on his team's mission. We saw Romeo in Carter and Juliet in Gina. Two individuals from feuding tribes that were separated by ill intentions. Their story carries a very fresh yet tragic flavor that is so fascinating to read. Though, that's not really the focus here!! But I still like reading their story. They should have their own book!

#### CARTER, HAN, BEN, LOU

Ha! I was totally giggling when these guys are on the scene. I love their humour. I totally love it. Han and Kell are a comical couple. I love seeing them hanging around. Give the comical couple more comical exposure please! It would be fun, too if Ben and Lou will stick around Carter's team and tease Carter around. I'd love to see how Carter will develop his relationship with the two boys given the fact that he harbors hate and love for the brothers respectively.

#### FULL OF ACTION

It is full of action to the point where dullness could not penetrate anymore. Each one of the chapters are all engaging. Amazing.

The author is significantly making a development and I must say this is her best work so far! Hope the excitement level never fades. I seriously do not want to be disappointed when I read the next series. Yes, I will read it.

Best Action Paranormal Romance I've read in early 2015 and definitely recommended to everyone!

Much better than the first book for me!

By Raquel Costa

This book was a lot of fun! It didn't change my life or took me to places I've never been before, but it was absolutely entertaining. In truth, I was a little fearful of reading this book, because I didn't enjoy Crossfire (Mirissa as a character especially) as much as I would've liked. But I'm very glad I picked this up!

This second book in the series revolves around Carter Mockta, one of the oldest members of the Omega Group, who is a wolf shape-shifter with a Native American background. And he is a great character! Multidimensional and flawed, yet still a true hero. In this mission he has to go back to his home village, a Native American Reservation in the Grand Canyon. And, although I'm no expert, you can tell everything in this book was amazingly well researched (the author actually talks about it after the book ends, and it's so interesting!).

The book had a great mixture of paranormal and scientific elements, as well as adventure and personal mysteries and developments. There is a great ensemble of heroic characters – paranormal and just plain (awesome) normal -, and I really enjoyed getting to know all of them. I especially LOVED Han! He is funny and witty, and I enjoyed every scene he took part. This wasn't a one-person-show kind of book, and that was the best part of the book for me, along with the Native American lore. Mirissa did have a part in the adventures, but she didn't do all the saving, which was wonderfully refreshing. There are some great plot twists – which I saw coming, but didn't mind because the story was very well written.

Yes, it is still very “super-hero” in the sense that nothing too bad ever really happens, but it is done in a much deeper way than it was in Crossfire. Over all, this book really surprised me in a great way! I also think it might work as a stand-alone, FYI.

My rating: 3.5/5

Will I read the next one in the series? Sure, if they are anything like this one.

Do I recommend it? Yes, to fans of Urban Supernatural/Fantasy adventures. They aren't particularly mature books, so people 12 years old and up would enjoy it (for parents out there: there are issues with anger and abortion, but they are all handled very tastefully, I think).

Immerse yourself into a fascinating world

By Gaby A

I didn't know what to expect when I started reading Rogue by Andrea Domansky and I was pleasantly surprised! I was given a free copy of this book in return for an honest review. It's a well written, easy to read book full of action. I enjoyed reading it and the author has an elegant writing style without any pompous words. I really liked how the native American tribes are depicted in this story. The prologue is a great introduction chapter in the history of the two main tribes: Havasupia and Yavapai. The plot is complex and interesting. I found myself not being able to put the book down, always curious to see what happens next.

Carter is a great and strong character, similarly like the others from the Omega Group. They all have their own powers and strengths and together they make the perfect team able to tackle anything.

Carter is really not looking forward to coming back home for this mission, he knows many problems will emerge and he will have to deal with them. I like how the author digs into the past bit by bit offering more insight into Carter's life.

This story has it all: action, love, secret missions, government agencies, tribes and wolf and bear shifters; a great mix designed to make you lose yourself in this fascinating world.

It reminded me of the TV series Lost girl. I think the book can be successfully transformed into a movie or even series.

If you want to immerse yourself into a fascinating world and empathize with strong and likeable characters I highly recommend this book!
