Enchanting

By sbrundagehale

I am a kindergarten teacher and I have read this book (at the request of my students) four times in the last week. It is a wonderful, wonderful book. The art work is superb - it needs a Caldecott medal on its cover. In spite of the fact that I am retiring in less than three months, I am ordering two copies of Sea of Dreams; one is for myself and the other is for my 49 year old daughter. This book has also been a great springboard for class discussions. "Did the seagull help them?" "Who lit the light in the second castle?" "The little girl built the second castle taller. Why didn't she move it farther back from the water's edge?" What a beguiling book.

Beautifully Drawn

By nomadbride

We absolutely love this book. It contains no words, but tells a story eloquently through beautiful illustrations. It ends on a note that leaves children with a mischievous idea of what happens next, and thoroughly captures their attention along the way. It's a great book for children too young to read and one that can also capture the imagination of a fourth grader, prompting them to come up with their own imaginative journeys, stories, or other ideas with a surprise ending.

A magical experience

By Z Hayes

My first grader has an active imagination and is always writing stories and making up creative play stories with her dolls/ fairies/ toys. When I suggested we pick some picture books at the library, she was initially reluctant because she is currently keen on reading chapter books such as the The Doll People Collection: The Doll People, The Meanest Doll in the World. She changed her mind when she saw the attractive cover on Sea of Dreams.

The book has no written story or text within. Instead, there are a series of illustrations on each page that enable the reader to make up one's own story which is what we did. My daughter and I took turns making up a story for each picture, with the rule that our story needed to flow so that it would make sense. Little did we realize the treat and surprise we were both in for! The illustration starts off innocently enough with a young girl playing on the beach and building a sandcastle. But as we turned the pages, that sandcastle revealed a magical surprise that took us both into a realm of fantasy and magical adventure, and let our imaginations conjure an equally fantastical storyline! This is a book to be treasured, along the lines of Chris Van Allsburg's The Mysteries of Harris Burdick (Portfolio Edition).
