The law of attraction states—to put it simply—that like attracts like. Our thoughts literally become things through this process of attraction. This natural law of the universe is always working and our current circumstances are a direct result of our past and present thoughts, feelings, beliefs and expectations. Through these thoughts, feelings, beliefs and expectations you have attracted whatever you are currently experiencing. The great problem with this law is that most people do not consciously put it to use to create a more desirable reality. Instead they drift aimlessly with no real direction, and don't seem to understand why they are experiencing a reality that is way short of ideal. Don't be like these people; decide to create a better reality for yourself. This book will give you the knowledge and tools you need to help put the law of attraction to work in your life in a more purposeful way. Using the techniques in this book, you will attract more of what you want, and experience a more peaceful and fulfilled life.

This book also includes a free e-course on the content contained within the book, plus other topics not discussed in the book.

I spent the last three years in a job I hated. Throughout those times I read dozens of books on the law of attraction. I found this book. And followed some of the steps I seldom heard about in most books and within a month started a new job that was the exact match to many of the things I've desired throughout my time at my old job. This book is a must buy. And will literally change your life!

Insightful

By KAUVE

I have read a bunch of these manifestation books and so many of them are simply parroting some other author or have some wild theory that they use to make themselves sound in the know, but is really just cockamamie crap. James Weaver walks the walk as well as talks the talk. His is a no nonsense approach that gets down to the nitty gritty and is useful. Right on, James!
