THE WOMAN UPSTAIRS BY CAMRYN EYDE PDF

Ricci Velez is a fiercely independent woman that worked her way up from the poverty line to become a respected engineer and property developer. Mistaken as the little wifey by Tara Reeves, the new tenant at her Manhattan apartment building, Ricci wants to evict her before she even signs the lease. A slighted ex-tenant, a vandalized apartment, and an interfering best friend means that she's forced to offer Tara a room in her own apartment. Can she survive having the secretive hard-nosed executive judging her in her own home? Worse still, can she survive her match-making mother shamelessly besotted by the temporary house mate?

Great book

By Robert M

Ricci an independent woman who loves to fix things, oh and run her Manhattan apartment complex, is convinced by her best friend Alicia to rent an apartment to Alicia's new boss who is transferring to NY from LA. Tara (Ricci's new tenant) comes with baggage and an attitude which doesn't make their first meeting a happy one. Could this actually be love?

A great first full length book by this author, I was very glad to have stumbled upon. The two main characters feel real, and their complexities and hang up's will not let you put this book down. Nothing was rushed in this book, unlike too many other romances, and each character surprised you with each new revelation, and reminded the reader (as in life) not to jump to conclusions about an individual based on rumor or even first impressions.

Pleasant romance

By KLH

This is a cute romance between two women who initially dislike one another but come to love each other. The characters are likable and so are their friends and family. The author develops them well. There are interesting subplots with the people residing in the building that Ricci owns and manages. The romance is the usual lesbian romance plot but that's OK. How much different can any romance novel be, after all?

My problem is with Ricci who is apparently born and raised in New York but uses British terms and slang. It was jarring and I didn't even understand some of it. I had to stop and ask myself what the author probably meant. It's not just Ricci; the other characters speak British (or whatever country's slang it is), and the author

uses foreign slang/terms throughout the narrative. There are also many errors with punctuation and grammar, although the latter could be due to the different English being used. The book could have benefited from an editor or at least a proofreader. The inconsistencies and the lack of editing bring my rating down from what could have been a 5 to 3.

The woman upstairs

By STL

Happy that I purchased this book. It's a fun story with Ricca who owns a building that she rents to a new tenant Tara. Tara has baggage that she has to work through. Ricca's family adds to the fun. Fun book!
