Make more money with your money.

Invest in stocks to make the big bucks and start saving for retirement now.

You want to be debt-free in your swinging sixties.

Have it all . . . just not all at once.

Want a Mercedes more than anything in the world? You can make it happen . . .but probably not while sharing a summer beach house with your friends.

Finally a savvy, realistic finance book for those of us who love our Starbucks mocha lattes and Razr cell phones but don't want our Jimmy Choo shoes or Bose headphones buried under a pile of burgeoning debt. Not a book to read for personal finance knowledge

By econjack

Not the right book for a person looking for personal finance help. More of a book to help people justify poor spending habits. I do not recommend.

Great advice for lost young women going through that transition ...

By Natalie Alvarez

Great advice for lost young women going through that transition of becoming an adult as I was. I don't think it would be good for a seasoned investor.
